

### ABOUT BOOSTY LABS

Boosty Labs is a world-class fintech and cloud engineering team with 10 years' background of practice that combines consulting, strategy, design and engineering with specific focus on financial, distributed ledger and cloud domains.

Founded in 2017 as a product development company, currently we offer a broader range of services, including software engineering, technical consulting, design solutions and IT staff augmentation.

Within less than three years we have proved our high-level of cloud & DLT competence with a number of renowned global blockchain projects such as Storj, Bloom Protocol and Elixir.

Headquartered in Kiev, Ukraine, we maintain global presence through our offices and representatives located in New York, Los Angeles, London, Marburg, and Moscow.

There are four legal entities in the group with Credit Group Corp. (USA, Delaware) to be major asset-holding company.

### OUR SERVICES

Team Augmentation (Dedicated Team)	Engineering	Design	Consulting

Custom web, mobile development, re-engineering, and enhancements.	User experience consulting, prototyping, UX and UI development.	Startup management, product, enterprise architecture assessments, performance improvements, cloud consulting, growth marketing.

### FEATURED PROJECTS

#### Storj Labs

<https://www.storj.io/>

DLT & Cloud | Ongoing partnership

The world's largest decentralized cloud storage provider with a distributed network of 200,000 computers connected over the world, serving 20 PB of data.

We provided Storj with full-scope software engineering, product management, design and QA services. Delivered web development and integration/migration services. Designed, developed and launched Android / iOS apps, Object Storage management tools (aka Satellite Account), IAM using Macaroons, software for node operators, crypto/fiat payment system implementation using Stripe, etc.

#### NEM

<https://nem.io>

Blockchain

NEM one of the world largest and well know blockchain companies, with current market valuation over \$2,000,000,000 (was almost \$10b back in 2018).

Boosty Labs provides Full Stack, Back End, Front End and Quality Assurance services for NEM's new public blockchain - Symbol that going to be released on a mainnet in mid Jan 2021.

#### Affinidi

<https://www.affinidi.com>

Government | SSI | Blockchain | Ongoing partnership

Affinidi is building technology solutions as well as two applications, GoodWorker and Trustana, to promote the growth of a Self-Sovereign Identity-enabled ecosystem. Affinidi is founded by Temasek, a global investment firm headquartered in Singapore backed by Singapore government. Glenn Gore (formed director of AWS) recently joined Affinidi as a group CEO.

Boosty Labs started to work on this project in a partnership with Bloom Protocol but starting from Q1 2021 move this collaboration to a direct reports under Affinidi Group umbrella where they hire team of 10 Boosty engineers.

#### Bloom Protocol

<https://www.bloom.io/>

DLT & Remote Identity Verification | Ongoing partnership

The end-to-end protocol for identity attestation, risk assessment and credit scoring, entirely on the blockchain.

Our services includes Enterprise SDK development for iOS and Android and it's integration in client's apps, we also providing to Bloom such services as product management, QA and writing technical documentation.

#### Elixir

<https://www.elixir.io/>

DLT & Quantum Resistant Blockchain, Encrypted Messenger

The full-stack blockchain platform led by David Chaum, a pioneer in blockchain and digital payments. Elixir is built to deliver the high transaction rates, short processing times, with private transactions and secure transactions to bring blockchain technology to mainstream adoption.

We were engaged in full-scope of product management, design and QA services.

#### ConsensSys

<https://consensys.net>

Blockchain | CBDC | DeFi | Ongoing partnership

ConsensSys is the leading Ethereum software company. They enable developers, enterprises, and people worldwide to build next-generation applications, launch modern financial infrastructure, and access the decentralized web.

ConsensSys product suite, composed of Infura, Quorum, Codefi, MetaMask, and Diligence. Joseph Lubin who is a founder of ConsensSys also original founder of Ethereum together with Vitalik Buterin.

We will build a team of 8 engineers for number of their Codefi products portfolio.

### TECHNOLOGY EXPERTISE

#### GO

Gorilla, Cobra, dbx, Viper, Protobuf, Kademlia, gRPC, Distributed networking, GraphQL,

#### Cloud and Virtualization Tech

Microsoft Azure  
Amazon Web Services (AWS)  
Docker  
Kubernetes

#### Microsoft .NET Framework

C#  
ASP.NET MVC/WEB API  
Windows Presentation Foundation (WPF)  
TPL/Async  
Entity Framework (EF)  
MS SQL Server (T-SQL)  
LINQ

#### Full-Stack JavaScript

MEAN  
React, React.js, Vue.js  
Electron

#### Cross-Platform and Native Mobile

iOS / Android Native  
Swift  
Flutter,  
Kotlin / Java 8  
Xamarin  
HTML5 / JavaScript

#### Design

UI/UX design,  
Product design,  
Mobile applications,  
Graphic design,  
Branding
